

**Olive Emily Albertina Schreiner (1855–1920)**  
*author of classic novel - Story of an African Farm*

Feminist, socialist writer and social theorist Olive Schreiner, one of the most important – and radical – social commentators of her day.

"From our earliest hour we have been taught that the thought of the heart, the shaping of the rain-cloud, the amount of wool that grows on a sheep's back, the length of a drought, and the growing of the corn, depend on nothing that moves immutable, at the heart of all things; but on the changeable will of a changeable being, whom our prayers can alter."
